

Support Manual

EasyLink PLUS Series

Software Tools

The CD-ROM that came with your DVR contains free software. Run the CD-ROM, the following screen appears. Click **Tools**.

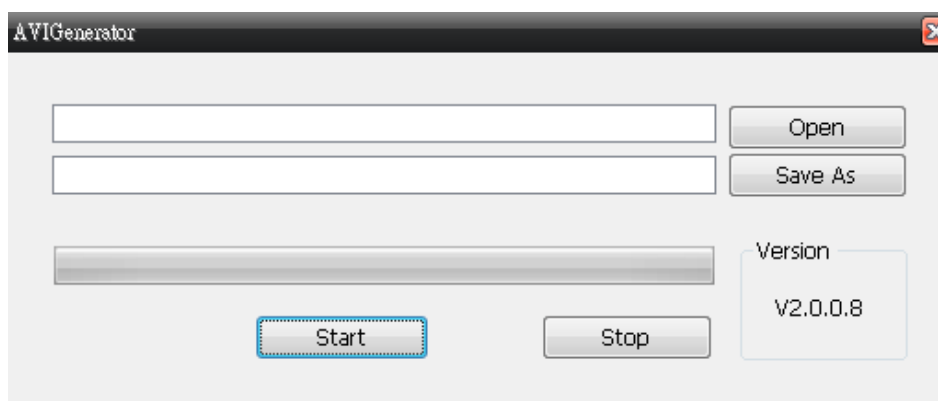

AVI Converter

The AVI converter allows you to easily convert DVR recorded files (H.264 format) into AVI format which can be played back using standard video players on desktop.

Run the CD-ROM and install AVI Converter in your computer to start using the software.

1. Run the AVI converter tool. The screen below appears.

2. Click **Open**, and browse for the DVR H.264 file you want to convert.
3. Click **Save As**, then type your desired filename.
4. Click **Start** to convert the DVR H.264 file to AVI format. The progress bar (on top of the Start button) indicates the conversion status.

- When conversion is finished, the message below appears. Click **OK** to close the message.

Playback Tool

The Playback Tool allows you to play DVR recorded files (H.264 format) in your computer.

Run the CD-ROM and install the Playback Tool in your computer.

- Run the Playback Tool. The screen below appears.

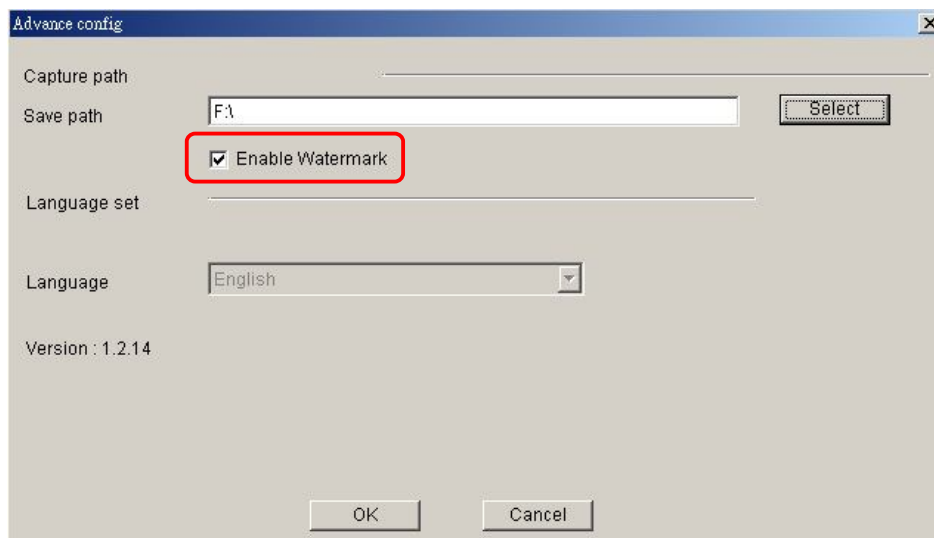

- Click , and browse for the DVR H.264 file you want to playback.
- Click  to start playback.

How to Ensure the Credibility of Recordings?

1. Click the **Advanced Config**  icon.
2. The Advanced Config screen appears. Check the **Enable Watermark** box.

3. Click **OK** to close the Advanced Config screen.
4. Click  to playback the video. The watermark is visible on the screen.

NOTE

If a recorded video is edited, such as when a few frames are removed, the edited video can no longer be played back with this Playback Tool.
